Wed, 18 Jul 2018 23:49:00 GMT - Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

Tue, 10 Jul 2018 05:15:00 GMT - Despite less education on average, a higher poverty rate, and more limited access to health care, U.S. Hispanics tend to live the longest. Why?

The Hispanic Paradox: Why Do Latinos Live Longer ... -

Mon, 16 Jul 2018 19:05:00 GMT - Plant Foods with Practically No Detectable B12 Analogue. Various studies have tested the foods in Table 1 for B12 analogues and found none. To my knowledge, other than in studies (described below) in which B12 or cow manure were carefully added to the growing medium of plants, no published study has shown any B12 analogues in any of these foods.
